WATER DESCENT

VIBRANT COLORFUL WATERFALL

Five models for different water effects

LED Strip Power

12V DC
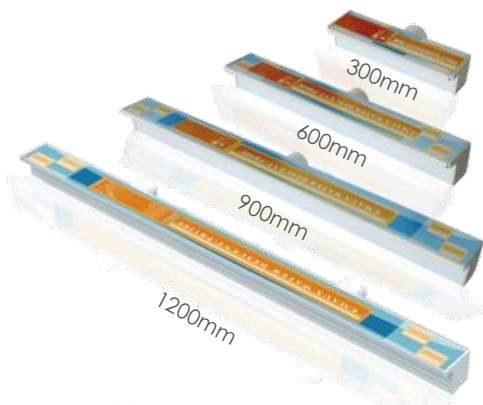

Remote Control

10 Lighting Patterns

Widths

25/150 mm

Lengths

300/600/900/1200mm

300mm
600mm
900mm
1200mm

Make your pool alive!

Water Descent is one of the most beautiful ornamental features for your pool or spa.

Creating a water movement in your pool, it may be adjusted from a peaceful sheet of water falling into the pool, to a relaxing water massage for your back, adding elegance and style to your pool.

Available in five different models, you can enjoy different water effects and trajectories, from our standard water fall, to rain sheer or arc trajectory.

With the optional RGB LED strip, the unit provides you vibrant colorful waterfall which adds visual interest and soothing sound of flowing water to your landscape.

Features

1. Available in two different widths: 25 mm and 150 mm, they are suitable for different wall sizes.
2. Four different lengths: 300 mm, 600 mm, 900 mm and 1200mm .
3. LED strip is powered by external 12V DC, which is safe and reliable.
4. The LEDs can be operated through panel or remote control and 10 lighting patterns are available.
5. Multiple water descents can share the same controller for synchronized color effects

Pool & Spa Equipment

LED Water Descent Control Box

Instead of using fiber optics, the LED strip is built into the unit placing the light source as close as possible to the waterfall. This design creates a wonderful illumination to the water falling into the pool.

10 pre-programmed LED lighting effects allow you to create the best luminous water features in your hands.

5 different models available for different water effects:

1. PB Series: Sheet of water with standard trajectory.
2. PBA Series: Sheet of water with arc trajectory.
3. PBS Series: Sheet of water with sheer trajectory.
4. RA Series: Rain fall effect with arc trajectory.
5. RS Series: Rain fall effect with sheer trajectory.

Production information

Code: 08080035
Model: WTD-CB
Input power: 220V AC ±15%; 50/60Hz
Output power: 12V DC: 60W
With remote controller

PB Series

This model provides an excellent water effect with a fine sheet of water falling like a mountain spring waterfall

300mm – 900mm Model

1200mm Model

NOTE 1 : This chart corresponds to the water descent with length 300 mm. For a length of 600 mm, the flow rate required is the double, for 900 mm, three times and for 1200 mm four times.
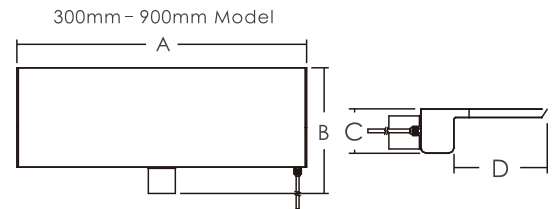

Water Descent PBA SERIES PBS SERIES

PBA Series

The water descent produces a beautiful arc of water before projecting away from the pool wall and falling the pool creating a relaxing sound of water and a hypnotized scenario, especially at night.

300mm – 900mm Model

NOTE 2 : Water descent(s) only to be used filtrated water. Water flow rate or water pressure is higher, it has to be diverted to the pool. Check the charts or each water descent which relate flow rate, trajectory and height of water descent.
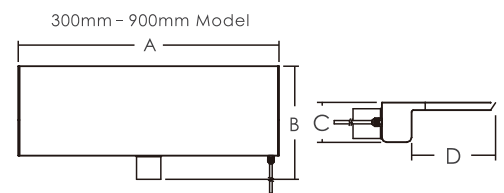

Water Descent RA SERIES | RS SERIES

RA Series

Water Descent Rainfall Arc adds character and style to your pool. The water rain projects up from the unit at an angle 45° and then naturally arcs and falls to the water surface.
